EARLY PROFITS **BECOME LOSSES**

Concerted Selling of Rails, Steels and Motors Undermines Prices.

NEW YORK, March 1—Bull operators were active again today in various speculative stocks, but encountered considerable opposition in the last of the session. Sales approximated some 290,800 charges.

short interest in the stock market The short interest in the stock market hurriedly covered its contracts at the opening, as many popular issues made early gains of t to I points. Leaders of the advance, which was stimulated by the further rise of British exchange, included Gulf States Stoel, prominent equipments, oils and several of the ralls, notably Canadian Pacific, Suears, and feed specialties extended Tuesday's substantial gains. National Biscult rising I points. Market Street Railway prior preferred was the only reactionary issue. fulling 13 points.

points. Market Street Railway Prior proferred was the only renetionary Issue, falling 115 points.

Fears of an early money flurry, due to March I payments, were groundless, call loans opening at 4% per cent.

Equipments, independent steels and motors and their subsidiaries continued to move forward with slorpings. Gains of, I to I points were made by Kelsey Wheel. Crucible, Replocie, New York Air Warner, Stromberg United States Rubber and Kelly-Springfield. Mexican and California Patroloums and Standard Oil of New Jersey featured the stronger oils. Except for Texas & Pacific and Canadian Facilic at gains of I point and Expoints, ralls were apatients.

Reduction of the short interest in the motors rendered them sensitive to pressure, and vigorous selling carled down issues I to 2 points from their early highest. Meanlime, the enuipments, leathers, sugars and public utilities shares crept steadily upward. New York Airbrake gained a points, Lima Lecomotive and South Porto Rico Sigar 4, National Cloak and Suit 3%, Burns Brothers "A" 3, and Columbia Gas 25.

Concerted selling of rails, steels, motors and oils undermined prices later, effecting reactions of I to 3 points and causing numerous net losses. The clossing was heavy.

BROKERS INDICTED.

NEW YORK, March 1.—Two more stock brokers were indicted by a suppreme court grand jury for irregularities disclosed in District Attorney Easton's Investigation of bucket shopping which followed the failure of a number of brokerage firms. Names of the de fendants were withheld.

FOREIGN GOVERNMENT BONDS

Are attracting more attention as their prices rise, but they are still relatively lower than other good investments. During the past century there were two othopportunities like the present: 1815 to 1827 and 1865 to 1873. Government bonds after those periods rose to prices which cut the yield in half with practically no repudiation of principal or interest. The advantage of external government bonds is their almost perfect record of payment. Some of the best. which should sell in normal times on a 3 to 4 per cent basis can still be bought to yield 6 to 7 per cent. Full particulars on

200 00 STANCHARY PAID.

BIG ROVALTY PAID.

SAN FRANCISCO, March 1.—The Honolulu Oll company has made the 93.00 \$1.139.314 to obtain a lease on 2400 acres \$0.00 \$6.00 of land in the Euena Vista hills of Kern county. This is said to be the largest royalty paid by any company under the of land leasing act, which provided for settlement of the controversy between the government and oil operators over land titles.

WASHINGTON, March 1.—Claims of the war department for \$6.000,000 against the Lincoln Motor company of Detroit, will be thoroughly investigated before suit is brought by the government, Attorney General Daugherty said today. The claims officials explained, involved unauthorized allowances for depreciation and prospective profits on Liberty motors manufactured for the government during the war.

WAVE OF DISTRESS POUNDING BROKERS

NEW YORK, March 1.—The wave of financial distress continued to pound against Wall street brokers today.

In the foreneon Walter J. Schmidt and Company, 30 Broad street, amounced suspension of its business. A statement said this action was necessary in order to conserve the interests of all our customers and creditors during the period of uneariness.

The Schmidt firm has specialized in railroad stocks. No mention of assets or liabilities was contained in its announcement.

GRAIN

CHICAGO. March 1.—With snow on the ground over practically the entire domestic winter crop territory today and with lower quotations from Liverpool, the wheat market here showed a material setback in prices during the early leading. It is pointed out also that the United States' visible supply of wheat was larger than a year ago, and that there was more wheat on ocean passage as compared with this time last year. An unturn in values at Buenos Aires, however, tended to check declines here. The opening which varied from \$\frac{1}{2}\$ to 1.23\$, were followed by slight further losses and then by something of a rally.

further losses and then by something of a rally.

Corn and oats were easier with wheat. After opening \(\frac{1}{2} \) to \(\frac{1}{2} \) lower, May \(\frac{1}{2} \) to \(\frac{1}{2} \) counting the local during the committee of the corn market weakened in triffs further.

Onts started unchanged to \(\frac{1}{2} \) to \(\frac{1}{2} \) by \(\frac{1}{2} \) and then held for the initial range.

Provisions reflected downturns in the value of hogs.

Subsequently, bullish estimates of farm stocks of wheat falled to stimulate much buying. As a result, many traders shifted to the selling side of the market, and caused pronounced weakness in prices. The close was unsettled. \(\frac{1}{2} \) is \(\frac{1}{2} \) to \(\frac{1}{2} \) and July \(\frac{1}{2} \) \(\frac{1}{2} \) is \(\frac{1}{2} \) in \(\frac{1}{2} \) is \(\frac{1}{2} \) in \(\frac{1}{2} \) in \(\frac{1}{2} \) is \(\frac{1}{2} \) in \(\frac{1}{2} \)
